

## **CLIMEPORT CONTRIBUTE TO WPCI**

In November 17-18th the Europe-Africa Regional IAPH meeting will be hold in Hamburg. In this context, a new session will be dedicated to de World Ports Climate Initiative reviews. The WPCI was launches in Rotterdam in July 2008 and aims to promote tools to help port to contribute to Climate Change mitigation with an international point of view.

CLIMEPORT, as the leading initiative in the Mediterranean of the port industry concerning Climate Change mitigation, will be presented in the meeting with the aim of aligning the work developed within its working groups with the WPCI World Wide initiative. This way, a common approach could be developed and the results of CLIMEPORT will contribute with the global initiatives of ports concerning Greenhouse gases emissions abatement.
